We make sure your patient services or treatment practices are in compliance with applicable laws.
5. Affiliates and Partners
A merchant's affiliates must comply with all program standards. Affiliates are any individual, business, or entity who previously, currently, or is expected to have a commercial and/or professional relationship with the applicant organization or its principals. This means any person or entity that exercises control over or participates in the business must not be affiliated with or control any other entity that violates these standards. This includes but is not limited to partner pharmacies, businesses or medical practices, supplying wholesalers, co-owned companies, staff, any associated medical personnel, and may include entities that are promoted on the domain seeking certification. All affiliates and partners must be operating legally.
A merchant's partners, defined as organizations essential to supporting the applicant's continuum of care, such as partner pharmacies responsible for the fulfillment of prescription medication to patients, are generally required to be LegitScript-certified or accredited by another recognized body, with limited exceptions permitted only at LegitScript's sole discretion.
